**BILIOUSNESS  
AND  
CONSTIPATION  
CURED BY  
THEDFORD'S  
BLACK-DRAUGHT**

Because the liver is neglected people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown.

Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and virulent contagion results. Timely treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the inroads of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c. package of Thedford's Black-Draught.

This Institution is designed and constructed for the comfort and accommodation of patients who seek relief and recuperation and the recovery of lost health. Its location is admirable for this purpose. It is on the Iron Mountain Railway, 89 miles south of St. Louis, and 640 feet above that city. Nestled at the foot of Shepherd Mountain, embowered among majestic trees, just off the main street, and free from its noise and dust, and alongside, and connected with, the famed Emerson Park, with its shady walks and drive-ways, Sylvan Lake and Grant Spring, and their attractive surroundings, no more beautiful or restful retreat for the invalid and convalescent, or the weary and careworn, can be found in all America.

**A Few Facts Concerning**

**Rupture**

In order to become proficient in the cure of rupture, years of preparation and experience are necessary in order to practice with any degree of certainty. Dr. W. A. Lewin, the rupture specialist, is a graduate of several European and American colleges and has devoted many years to the study of this particular branch of medical science.

He treats rupture without the use of the knife, without drawing blood, without danger and without detention from regular occupation.

All is accomplished within a few weeks and no one is pronounced cured until the opening through which the intestines protrude is entirely closed and permanently healed. This is done by building up new tissue, a growth similar to that over a wound that has healed, so that the patient is stronger at this spot than he was before the rupture occurred.

Consultation and advice free. No pay required until cured to your entire satisfaction. Send for free booklet containing testimonials. 10,000 patients cured. Call or address,
